7 December 1965

INTELLIGENCE COLLECTION REQUIREMENTS STUDY GROUP

Minutes of Meeting - No. 3 - 6 December 1965

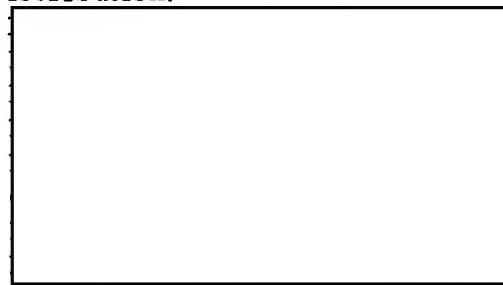

1. The DD/S&T Collection Requirements Study Group met 6 December with all members present.
2. Almost all collection requirements are generated by OSI and FMSAC. The OSI submission to the Group questionnaire was studied in detail. Particular difficulties were experienced in the use of the machine run listing collection requirements and responses.
3. To further clarify the scope of the study, the decision was made not to consider the collection functions of USIB Committees, i.e., JAEIC and GMAIC, which are chaired and supported by OSI and FMSAC.
4. The next meeting is scheduled for 8 December at 0900. Emphasis in this meeting will be directed toward the informal levying of requirements.

25X1

Chairman
DD/S&T Intelligence Collection
Requirements Study Group
